

Introducing zHealthPay

Fast and Secure Payment Processing Solution for Chiropractic Practices

December is here, and that means one thing, it's time to be merry! We've got some exciting news that will make your holiday season even more cheerful. We are delighted to announce that we have launched [zHealthPay](#) - a fully integrated payment processing solution built specifically for chiropractors. Now, you can accept payments from patients with just a tap. zHealthPay will simplify the collection of patient payments by accepting all payment card types, including credit/debit cards, Visa, MasterCard, Discover, and American Express. Tap, dip, or swipe any credit or debit card to process contactless payments in under one second.

Sign up for zHealthPay

The easier you make it for your patients to pay you, the faster you get your money. Take payments quickly, easily and securely with zHealthPay. Sign up for zHealthPay with this [guide](#).

Activate zHealth Payment Terminal

zHealth Payment Terminal is a credit card and debit card machine that accepts all types of cards. You need to activate it before you start accepting payments. Check out this [guide](#) on how to activate zHealth Payment Terminal.

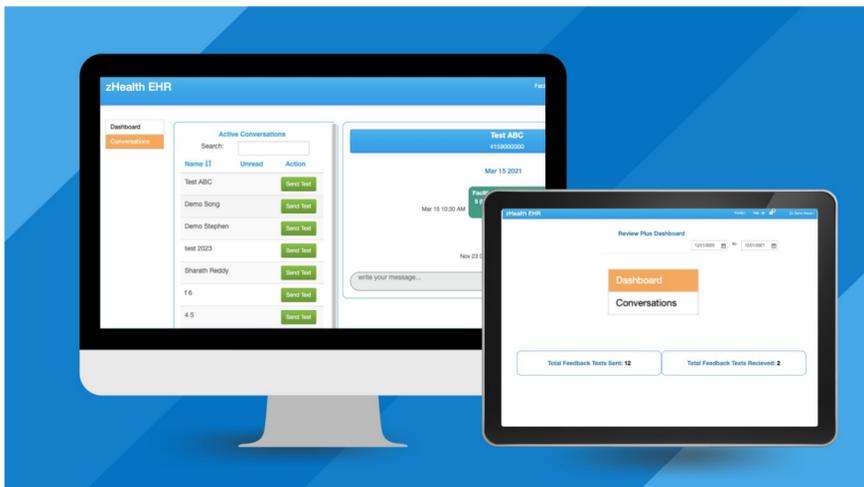

Tap, Dip, Swipe, and Done

Get ready to accept payments seamlessly and securely. Tap, dip, and swipe debit or credit cards and process contactless payments in under one second.

All-New Review Plus

Online reviews are incredibly important for chiropractors. Automating your online reputation management can help you grow your practice while spending more quality time with patients. That's why we have streamlined our review automation platform - [Review Plus](#). Now, you can view active conversations with patients, send them personalized messages through your desktop, and even check how many replies you received for all review requests.

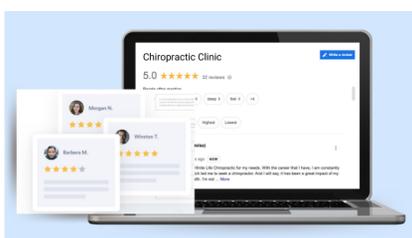

Review Plus Dashboard

Check the number of automated requests sent to patients and replies you received.

View Active Conversations

View the name of patients who received your review requests and initiate active conversations with them.

Get More Reviews & Patients

A good online reputation can help you acquire new patients. Post more reviews and win more patients, on autopilot.

Product Updates

What's New

We've added a new report type - [End of Day Summary Report](#) - under the General Statistics Report section.

We've added a patient chart hyperlink to the facility's [Follow-Up List](#). You or your staff can directly view the patient chart by clicking on the Patient Name in the Follow-Up List.

We've added HCFA box labels to the various fields under the [Primary](#), [Secondary](#), and [Tertiary](#) Insurance tabs.

We've added EIN and NPI numbers to the Notes under the [Past Notes](#) tab in the Patient Chart.

We've updated the Summary section in the [Patient Chart](#). It will now show the last 10 supplements, last 5 visit notes, latest diagnoses, primary and secondary insurance IDs, and more details.

Our system will automatically send [Intake Forms only to patients with appointment-type as 'N' \(New Patient\)](#) and if there is no previous note for the patient.

More Ways zHealth Can Help Your Practice Grow

Patient Plus

zHealth's Patient Plus helps you communicate with and engage patients automatically. You can close the communication gap with automated reactivation messages, birthday texts, and missed appointment notifications. Patient Plus works automatically so you can focus on patient care and our system takes care of patient communications.
