APRIL WEBINAR

FIRST FRIDAY WEBINAR

▶ LIVE WEBINAR
📅 1ST APRIL, 2022
🕐 12PM PT/2PM CT/3PM ET

REGISTER NOW

At zHealth Software, we are constantly adding new features and enhancements to help you and your staff do more with zHealth. In March 2022, we released a number of updates, including multiple prior authorization numbers in patient insurances, billing access restrictions for users, line notes in CPT codes, and more. Join our First Friday Webinar on April 1, 2022 to learn how these new updates are going to make your work easier and faster.

Explore all the latest software enhancements with our Customer Success Team and get answers to your questions.

Click [here](#) to register for this Friday's webinar. After registering, you will receive a calendar invite and confirmation email containing information about joining the meeting.

When: April 1, 2022 at 12pm PT/2pm CT/3pm ET
Where: Zoom

Save Your Spot Now!

In case you miss it or can't attend the webinar, don't worry! This webinar session will be recorded and made available in our [Customer Support Portal](#). So keep an eye on the Support Portal to access the webinar recording.

Product Updates - What's New

Insurances
We've added support for multiple Prior Authorization Numbers for patient's [primary,](#) [secondary,](#) and [tertiary insurances](#). You can add multiple codes for a given patient insurance and even deactivate all codes if needed.

Bulk Text Messaging
Our [Bulk Text Messaging](#) functionality is a "pay per text" feature. It is now available to all active admin users. You can access the "Send Bulk Text" option from the top right side drop-down menu in your dashboard as well as inside the Review Plus dashboard.

ERAs and EOBs
We've added a column for showing the '**Deposit Date**' in [ERAs](#) or [EOBs](#). The Deposit Date will be a different date from the current check-date and posting date. It will be the date used for an invoice payment for an encounter or visit.

CPT Codes
Our software now supports adding a [Line Note for a CPT code](#). All invoices will automatically inherit the Line Note for a CPT Code.
