## zHealth Named Leader in Chiropractic Software

We are thrilled to announce that zHealth has been named **Leader in Chiropractic Software** in both [G2 Winter 2023](#) and [G2 Spring 2023](#) Reports! This recognition is a testament to our commitment to delivering high-quality software that meet the evolving needs of our users. We want to thank you and all our customers for their support and trust in us to help them increase office efficiency, drive growth, and improve patient experience.

## Tips to Make Your Work Easier

### Create Short URLs with a few clicks

Have you ever tried to share a link to your website, review sites, blogs, images, or videos in a text or message and wound up with a long URL? Fortunately, there are many tools that make it easy to shorten any URL into an abbreviated URL that you can place into email, messages, Review URLs placeholder in the Review Plus dashboard, and social media posts. URL shortening services like Bitly, TinyURL, and Rebrandly can instantly shorten any URL to something that's more memorable and easy to share. You need to just open one of these tools in your web browser, copy the long URL, paste it into a box, click a button, and your short URL is ready for you to copy.

### How to Generate a QR Code

If you are you tired of having to manually type out long URLs or trying to memorize contact information, QR codes are the perfect solution! Generating a QR code is a breeze - simply find a free online QR code generator, like QR Code Generator, and input your desired information such as URL, text, or other information. Whether it's your online appointment portal, website, email address, or phone number, the QR code generator will automatically create a unique QR code for you to download and share. Just imagine the convenience of having your patients scan your QR code and instantly having all the information they need right at their fingertips! Here is how you can generate your own QR code today.

## Tips to Keep Your Patients Engaged

### Send out birthday greetings

Send [personalized birthday greetings](#) to your patients to show that you are always thinking about them outside of their appointment.

### Interact between visits

Differentiate your practice by engaging your patients more between visits. [Send personalized healthcare tips via email](#) to empower patients to take greater control of their care.

### Communicate to engage

Regularly communicate with patients through newsletters, email, or [text](#) to keep them up-to-date on your practice and services.

### Ask for feedback

Reach out to patients and [ask for their feedback](#) on their experience with your clinic and make changes based on the feedback received from them to provide a better experience.

## Free Resources to Grow Your Practice

### Whitepaper - Patient Engagement Trends 2023 for Chiropractic Practices

With the rise of technology and the internet, patients have access to more information than ever before. This has led to a shift towards more patient-centered care, where chiropractic providers work collaboratively with patients to achieve shared goals. To help you on this journey, we have put together a whitepaper that explores the current state of patient engagement in chiropractic care. Download the whitepaper to learn more about the latest trends and strategies for improving patient engagement in your practice.

### Explore Help Videos and Onboarding Recordings

We've been working on making zHealth better for you. No one likes missing out - so we wanted to let you know about help videos you may not have seen before. These videos can be useful for anyone who wants to refresh their knowledge or needs a quick refresher on certain topics.

[Access Help Videos](#)

If you are a new clinic personnel, check out our Onboarding Videos to learn at your own pace. You can access them at any time, which is beneficial for individuals who couldn't attend onboarding meetings. There is a zHealth Demo Video as well that is designed to help you get an overview of how zHealth works.
